# EARTH DAY

Earth Day is an amazing day to celebrate our planet. We can do lots of fun and exciting things on Earth Day! We can help the Earth by picking up garbage, planting a tree, or making something out of recycled materials. We can also teach our friends and family about ways to reduce, reuse, and recycle. Even small changes can make a big change on the planet. Let's work together to make Earth Day a day that celebrates how we can help keep our planet healthy and safe!

What are 5 ways you can help  
the planet on Earth Day?
